

FRITSCHÉ – SW – AN – H Clamping Tool with Stop and Handle

With the FRITSCHÉ Clamping Tool, cutting to length and filing are no problem. Creating parts of equal length is easy, too.

Save time, material and money!

The length stop is secured by an Allen screw, and can be adjusted precisely by means of two knurled nuts – even at a 90° and 45° angle!

The FRITSCHÉ Clamping Tool is made of high-quality tool steel.
